

M2 ADVERTISING

**Corporate Gifts
Portfolio**

At M2 Advertising we believe in gifting items that are unique, modern, and highly user friendly.

We consider the clients end user and recommend gifts that will be appreciated and used in their daily lives, not tucked away in a drawer or handed down. A gift that is used daily will create brand recall & brand loyalty for years to follow.

We source directly from factories and are able to offer quality products at a reasonable price, landed at your doorstep and fully customised. For the past 15 years we have worked with many large corporates in Tanzania, below are some of those examples.

Thank-you
